5000+
Students

QUICK TUTORIALS

At Nexus, acquire industry-relevant tech skills such as programming, software development, data science, cloud computing and more to become a world-class IT professional.

Features Include

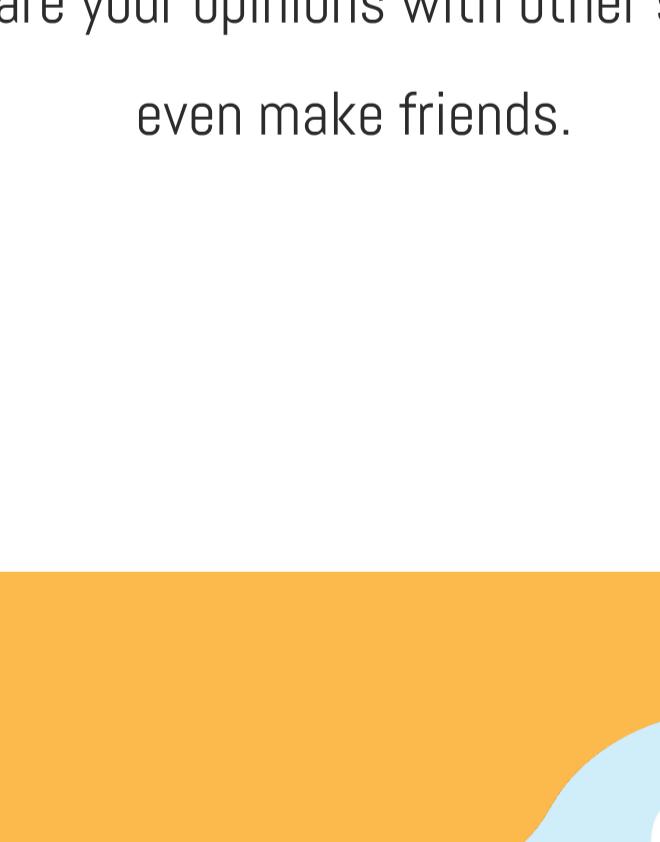

Code Reviews

We don't just give you assignments, we review your solutions and give you insightful feedbacks on your code to enhance and reinforce your understanding.

Mentorship

Even without being in a physical class, we make it possible for our students to ask questions and get guidance through our seasoned and qualified mentors.

Live Code Editor

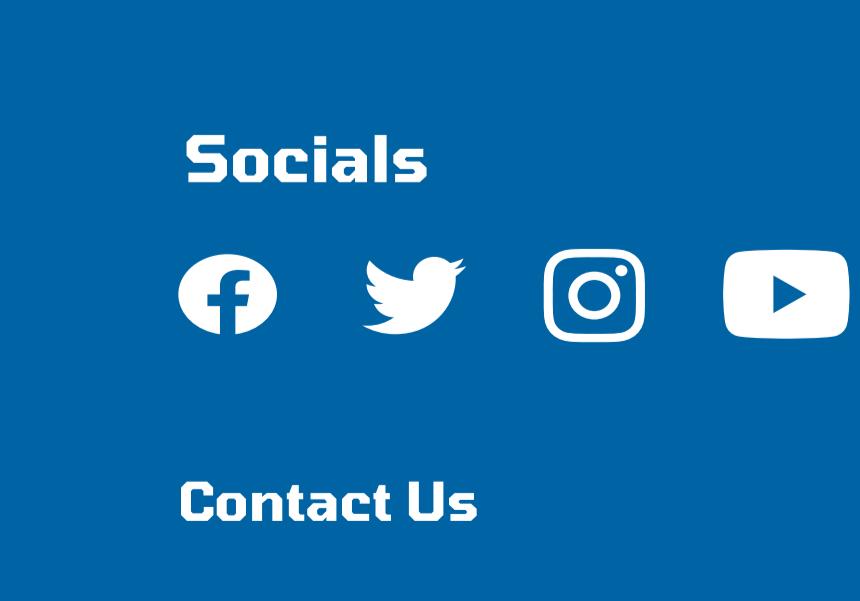

Whether at home or on the go, you can still follow your classes and practice with our easy-to-use code editor. It works on both the web and mobile app.

Community Forums

Just because you are learning online doesn't mean you have to be all alone. With our discussion forum, you can share your opinions with other students and even make friends.

Download Nexus App

Whether at home or on the go, **Nexus** wants you to keep learning. Hence, the **Nexus** app.

Is an ed-tech platform that trains kids and teenagers in programming and other tech skills
